

Product Description

1000 in 1 is the latest popular universal A/C remote control, using the patent technology of "intelligent cooling" & "intelligent heating", it could be a comfortable temperature just by one key. Also, it has the clock, timer ON/OFF etc. And easy setting actually could be the best choice for replacing the old.

Thank you for choosing our product. It is our greatest wish that provide the convenience for your life. Please read this manual before using, it will help you for using the remote control correctly.

Panel Description

Model setting of remote control

1. Open the battery cover put 2 AAA batteries as per polar indicated on battery cabin.
2. Find the code from brand code list. If there are many codes for one brand, you have to try the first one and if it doesn't work, please try the second till it works. For example, AUCMA, you could try 0288 first, if it doesn't work, you could try 0289 and so on.
3. Press "SET" key, brand code on LCD will flash, press code "+" or "-" until required brand code appears. Then press "ENTER" key, the brand code stops flashing. Aim at air-conditioner By pressing ON/OFF key, you could control your air conditioner.

Remote Control Auto Search

- If you don't know brand of your air-conditioner or you cannot find required brand from brand code list, please operate as per in the following step:
1. Put the remote control aim at your air conditioner, press the "SET" button for 3 seconds and release, the remote control is entering the auto-search status, launch the signal continuously, the code blinking and increasing. When the air conditioner receive the signal, and send a BUZZER, press any keys to confirm.
 2. Try the other functions of your equipment, if do not work, repeat these steps until it can operate Your equipment.

Clock setting

1. Press "CLOCK" key, the clock on LCD will flash.
2. Press "TIME/CODE" "+" or "-", tune to correct time.
3. Press "CLOCK" key again, the clock on LCD stops flashing, the setting is OK. (Without pressing "CLOCK", the setting also would be finished after 15 seconds.)

Timer on

- You can set timer on, only turning off your air conditioner.
1. Press the "TMR on" button, the LCD displays the clock signal and time blinking.
 2. Press "TIME/code" "+" or "-" button, adjust the time when you want to make the air conditioner turn on automatically.
 3. Time blinking and it will stop after 5 seconds. The LCD displays current time and clock signal. Now Setting is complete.

Timer off

- You can set timer off, only after turning on your air conditioner.
1. Press the "TMR off" button, the LCD displays the clock signal and time blinking.
 2. Press the "TIME/code" "+" or "-" button; adjust the time when you want to make the air conditioner turn off automatically.
 3. Time blinking and it will stop after 5 seconds. The LCD displays current time and clock signal. Now Setting is complete.

Using of "intelligent cool" "intelligent heat"

These two intelligent keys suit the children and the old especially. In the summer, press the "intelligent cool" only, the air conditioner will be cooled immediately. In the winter, press the "intelligent heat" button only, the air conditioner will be heated immediately. In both status, the air conditioner will let the heating and cooling in a comfortable temperature automatically, and the speed and direction of wind are automatically. Indeed, it also can adjust the temperature by the "+" "-" buttons according to requires.

Attention

1. Generally, the battery can be used for one to two years. If it is not used for a long time, remove the battery so as to avoid leakage liquid of the battery to damage the machine. When the LCD looks dim, please change batteries. (New and old batteries can not be used together). After the batteries change, the remote should be settled again.
2. As usual the LCD only display the time when pressing model codes "ENTER" button, you can find the code and it is showed on LCD. After 5 seconds it returns time.
3. Check carefully that there is no remora between remote controller and Air conditioner when the time on/off doesn't work. Because the operation is effective only when the air conditioner receives the Timer on/off signal from remote controller.
4. The manufacturer keeps the right to change the parameter and function of product.

Technical Parameters

Controllable distance: Large than 8 meters
 Power supply voltage: DC3V
 Battery model: Battery AAA(UM-4, R03)*2
 Dimension: L 115mm*W45mm*D20mm
 Weight: Approx.50g (excl.the batteries)

Manufacturer

Name: QUNDA Control Technology (Jiangsu) Co., Ltd.
 Address: No.888 LongQiao Road, WuJiang District, SuZhou, China
 Post code: 215200 Web site: www.qunda.com
