Blind friends also can use

Product Description

Valued users:
Thank you for choosing this universal remote control. It is greatest wishes of all my colleagues to offer facilities for your life.
KT-e02, one-key universal AC remote control is a high-tech product with several patents of invention which are invented by our engineers. Whether summer or winter, you could enjoy comfort just by one key, it is not only for the youth but also for the elder with big button and big numeric. In addition, the remote has room temperature; you could use it as a thermometer. So it's your best choice of replacement.

KT-e02 is a universal remote that 4000 in 1, you could use it for both domestic equipment and imported equipment (control 98 percent air-conditioner in the world). Please read this manual and set your remote for your brand before using and we hope it will help you to use this remote.

Setting of remote

Pull side cover of remote control down, put 2 AAA(UM-4,R03) batteries as per polar indicated on the battery cabin. And set up your remote with one of the following methods.

1、Model setting of remote

① Find out the required code from brand code list. If one brand has several groups of codes, you should try the first group. If it doesn't work try the second and to this analogizes until the remotes can operate your equipment. Ex: AUCMA, you can choose 0288, if it dose not work, please try the 0289 etc.

② Press "SELECT" with stick, brand code on LCD will flash, press temp "▲" or "▼" until required brand code appears. Then press "ENTER" finish setting. Try the other functions of your equipment, if they work well, you could use it normally.

2、Auto-search code setting

If you do not know the brand of your air conditioner, or if your brand is not listed in the code cable, try searching for your code as follow:

① Put the remote control aim at your air conditioner, press t "SELECT" button with a stick for 5 seconds and release, the remote control is entering the auto-search status, launch the signal continuously, the code blinking and increasing. When the air conditioner receives the signal, and sends the BUZZER, press any keys to confirm. (Note: please press the keys as quickly as you listen to the buzzer, otherwise, you would miss the correct code.).

② Put the remote aim at your air conditioner again, press "one-key", the air conditioner works and finish setting. Otherwise setting again use above methods.

Function indication

1、One-key nonstop function

After setting codes, whether in summer or winter, when you want to use air conditioner, just aim remote at your air conditioner and press the "one-key". Remote can judge the room is in summer or winter according to the current temperature. In

Function indication

summer, the temperature will be set in 26°C. In winter, the temperature will be set in 20°C, and fan middle, swing auto. If you feel not comfortable of the temperature, you could adjust by temp. "▲" or "▼". Of course, the remote also has common functions as original remote.

2、Clock set up

① Press the "CLOCK" with stick, it is blinking.
② Press the temp "▲" or "▼", setting to the current time.
③ Press the "CLOCK" with stick again, stop blinking, the time setting is complete. (If you did not press the "CLOCK" button, it can be setting automatically after 5 seconds)

3、Timer off setting of remote control

Timer off: you should set timer off, only after turning on your air conditioner.

① Press the "TMR OFF" key, the clock signal on LCD appears and time flashes.

② Press "TEMP + or -", tune to required time. Pressing once is ten minutes. Press and hold it, time will increase or decrease quickly.

③ Time flashes and it will stop after 5 seconds. The LCD displays current time and clock signal. Now setting finishes.

4、Thermometer function

Except the setting temperature, it also can display the room temperature, so you could use it as a thermometer.

Attention

1、If it is not used for a long time, remove the battery to avoid leakage liquid of the battery to damage the machine. When the LCD looks dim, please change batteries. (New and old batteries can not be used together) After the batteries are replaced every time, it is not necessary to set model code again.

2、As usual the LCD only display the time when pressing model codes "Enter" key, you can find the code and it is showed on LCD. After 5 seconds it returns time.

3、Check carefully that there is no remora between remote controller and Air conditioner when the time on/off doesn't work. Because the operation is effective only when the air conditioner receives the timer on/off signal from remote controller.

4、The manufacturer keeps the right to change the parameter and function of product.

Technical Parameters

Controllable distance: Large than 8 meters (According to the machine)

Battery model: Battery AAA(UM-4, R03)x2

Dimension: L133mmxW55mmxD16mm

Weight: Approx 62g (excl. the batteries)
